Coffee, Tea and Hot Drinks

Here at Voyage we have our own **House Blend**, a combination of beans from **Sumatra, Brazil, and Colombia**.

If you are in the mood for something different, why not try our **Single Origin bean**? This bean changes regularly, and is a special selection from just one small region of the world.

Coffee beans reflect the environment in which they were grown, so each new Single Origin selection will have a whole new flavor profile for you to wrap your taste buds around. Check our blackboard or ask our staff for today's pick!

We also have **Cold Drip coffee** and **filter coffee** available if you're in the mood for something other than espresso based coffee.

Cold drip coffee is brewed slowly using cold water and gravity, served over ice with lemon for a refreshing kick on a hot summer afternoon. Try it long (with sparkling water) for an extra thirst-quenching hit.

Filter Brewed Coffee is roasted lighter than our espresso coffee using select single origin coffee. This means you can pick up more of the delicate and distinct flavor and makes for a very clean black coffee.

We serve our coffee at a temperature that releases the optimum flavour of the beans. If you prefer your coffee extra hot, please let us know when you order and we will be only too happy to oblige.

Please ask our passionate Baristas if there is anything you would like to know about our coffee, we love to chat about it!

Cappuccino, Flat White	4.2
Long Black	4.0
